RGLS 80% Downflow Gas Furnace

The Rheem Value Series 80% Downflow Furnace is a value-alternative which enjoys the benefits of high-efficiency at lower cost.

- **Direct Spark Ignition and Remote Sensor**
The direct spark ignition is an efficient method of gas ignition while the remote sensor monitors the flame.
- **Furnace Control**
This solid state integrated furnace control is the “brain” of this dependable furnace-controlling the blower and inducer motors for heating capacity and efficiency.
- **Patented Heat Exchanger**
Extremely compact the heat exchanger provides a faster, more efficient transfer of heat. The aluminized and stainless steel construction is so reliable its backed with a 20-year limited warranty.
- **Induced Draft Blower**
It works specifically with the heat exchanger. The blower pulls hot combustion gases through the exchanger and vents them outdoors.
- **In-Shot Burners**
Regulates the air/gas mixture.
- **Blower Motor**
An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.

Limited Warranty Information

Conditional Parts: 10 Years (Registration Required)

Heat Exchanger: 20 Years

Comfort and Efficiency

Heating Capacities from
50,000 to 150,000 BTU/Hr

5600 Old Greenwood Road
Fort Smith, Arkansas 72908
